CRIMSON RIDGE TOWNHOME ASSOCIATION

Storm Doors Requirements

Dear Homeowner,

Storm doors are acceptable for the Crimson Ridge community with some requirements. The storm doors need to be white and full glass. (which eliminates the kick board). A self-storing full glass door with screen is also acceptable. Your doors can be beveled glass and have the safety bar that runs across the door.

Installation of the door is the responsibility of the homeowner. It is also the responsibility of the homeowner to see that the installation is done by professionals or in a professional manner. Additionally, it is the Homeowners responsibility to maintain the door. Examples of maintenance would be: replace broken glass, door handles and front door frame damage due to installation of the door.

Please sign this letter if you intend to add a storm door and agree to these terms and conditions.
